The rates are guaranteed for one year. They are declared at issue and on each contract anniversary. The minimum monthly cap is 0.50%. The minimum annual cap is 0.25%. The maximum annual spread is 12%. The minimum interest rate is 0.10%.

The premium bonus and interest bonus are credited only to the Protected Income Value. To receive the PIV, including the bonus, the contract must be held for at least 10 contract years, and then lifetime income withdrawals must be taken. You will not receive the bonuses if the contract is fully surrendered or if traditional annuitization payments are taken. If it is partially surrendered the PIV will be reduced proportionally, which could result in a partial loss of bonuses. Income withdrawals are considered partial withdrawals and are subject to ordinary income tax and, if taken prior to 59<sup>½</sup>, a 10% federal additional tax. Because this is a bonus annuity, it may include higher surrender charges, longer surrender charge periods, lower caps, higher spreads, or other restrictions that are not included in similar annuities that don't offer a bonus feature.

The blended index option is comprised of the following: Dow Jones Industrial Average (35%), Bloomberg Barclays U.S. Aggregate Bond Index (35%), EURO STOXX 50<sup>®</sup> Index (20%), Russell 2000<sup>®</sup> Index (10%).

<sup>1</sup>The bonus is subject to a 10-year vesting schedule. 10% of the bonus will become vested on each contract anniversary until the beginning of the 11th contract year, when 100% will be vested. If you surrender your contract before the 11th contract year, you will lose the unvested bonus. Bonus annuities may include higher surrender charges, longer surrender charge periods, lower caps, higher spreads, or other restrictions that are not included in similar annuities that don't offer a premium bonus feature. During the first 10 contract years, we will apply a surrender charge and unvested bonus reduction if you partially or fully surrender your contract. The same would apply if you begin annuitization, which means receiving regular annuity payments over a specified period of time, prior to the sixth contract year (or for fewer than 10 years). These charges may result in a loss of bonus, indexed interest and fixed interest, and a partial loss of principal (your premium).

<sup>2</sup>The annual rider charge is 1.20% of the protected income value, deducted on a monthly basis from the accumulation value and guaranteed income value (in most states).
